

Call for an Immediate Ceasefire:

In a time when media are creating a false narrative by sharing misinformation and intentionally dehumanizing Palestinians, taking an active part in the real-time ethnic cleansing Israel is committing in Gaza and the West Bank with the help of Western countries, we support Palestinian liberation and call not only for an immediate ceasefire and release of hostages held by Hamas but also for the end of the occupation of Palestinian land, the oppression of its indigenous population, and the safe return of all forcibly displaced.

No true peace can be achieved under apartheid, and the Israeli government must be held accountable for war crimes and crimes against humanity committed in the current war and decades of occupation.

We are also shocked and saddened by the rise in hateful attacks towards Jewish and Arab communities worldwide and the policing of pro-Palestinian protesters. We believe in urgently shifting the focus from a divisive political debate to one rooted in compassion and respect for the human rights of all and encourage everyone to speak up against injustice and fear-mongering.

There are many ways to help, and if you have the option of donating to one of the humanitarian organizations operating on-site, we found Doctors Without Borders and Palestine Children's Relief Fund, amongst others, to be trustworthy.
